

## A message from one of our HNA neighbors

Dear Hilltop Neighbors:

There is a Coyote lurking around our neighborhood, he walked right passed me and my neighbor last night at 6:PM on my front lawn on Charnock and spent the majority of the night in front of my house on Ocean View/Charnock. He is after the cats. My neighbors cat attempted to walk across the street towards my house and Mr. Coyote immediately went after him, I was able to shoo the Coyote away from the bushes so the Cat could get away, but please be aware they are around and he will most likely be back. Animal Control can do nothing about wildlife and will only come out if the animal is sick and/or injured. PLEASE KEEP YOUR CATS INSIDE FROM DUSK ON, DO NOT LEAVE SMALL PETS AND CHILDREN UNATTENDED IN YOUR BACKYARD, THEY CAN TAKE ANYTHING UNDER 35 POUNDS!!! They shy away from any human contact and will not attack you, but they will attack your pets!

Tina Pollard
